

BENJAMIN M. CORNELIUS, P.E., C.E., S.E., P.Eng.

Partner

LERA Consulting Structural Engineers
 40 Wall Street, 23rd Floor
 New York, NY 10005-1339
 (646) 981-4341
benjamin.cornelius@lera.com

**Profile**

Benjamin Cornelius is a structural engineer with over 30 years of experience in the design and rehabilitation of structures, including tall buildings and other complex structures. His projects include the Broad Museum in Los Angeles, the renovation and expansion of the National Baseball Hall of Fame, and the supertall TransNational Place in Boston. Mr. Cornelius leads LERA's Forensic Investigations and Expert Witness Practice and is an experienced expert witness. He has conducted over fifty forensic investigations in North America, Europe, and Asia in disputes totaling over \$2 billion. He has provided consultations in disputes involving tall buildings, residential structures, embassy complexes, medical facilities, historic buildings, sports and entertainment structures, transportation facilities, hydraulic structures, and modular construction. He has led investigations into the collapse of steel, concrete, and masonry structures and has testified in mediation, arbitration, and court proceedings. Mr. Cornelius is past Chair of the Executive Committee of the Forensic Engineering Division of the American Society of Civil Engineers (ASCE) and has served as an adjunct faculty member at the Rhode Island School of Design. He is author of several papers and articles on structural engineering topics and co-authored ASCE's *Guidelines for Failure Investigations* (2018) and ASCE's *Investigation of Constructed Facilities: Sampling Methodologies* (2021). He is licensed as an Engineer in several U.S. states and Canada.

Professional Experience**LERA Consulting Structural Engineers (LERA)****2001 – Present**

Partner

2016 – Present

*Director, LERA Investigations and Expert Witness Practice**Partner-in-charge, LERA Partnership Communications**Project Experience, Investigations*

- *Construction Documents for an Airport Terminal.* Retained to evaluate the quality and completeness of construction documents for an 800,000-square foot steel-framed terminal structure modeled in TEKLA and provide expert witness services in mediation and litigation.
- *Collapse of a concrete and masonry building.* Retained to lead the forensic engineering investigation of a building collapse on behalf of a governmental authority.
- *Constructability of Composite Reinforced Concrete and Structural Steel Structure.* Retained to investigate and serve as an expert witness in the investigation into alleged constructability issues involving two-story deep steel trusses supported on composite concrete and steel columns in a hotel and conference center expansion in the southeastern U.S.
- *Deterioration of Wood-Framed Structure.* Retained to investigate deterioration to lumber, timber, and oriented strand board (OSB) structural components in a four-story condominium complex in the eastern U.S., to provide repair recommendations, and to provide expert witness services in litigation.
- *Earthquake Load Resisting System Design.* Retained to investigate alleged defects in the seismic design criteria and structural design of a condominium project in the eastern U.S. and to provide expert witness services in mediation and litigation.
- *Collapse of a Reinforced Concrete Residential Tower.* Retained to investigate and serve as an expert witness in the collapse of a reinforced concrete residential structure in the U.S.

LERA

- *Structural Steel Connection Fit-up Issues and Failure.* Retained to investigate the causes of fit-up problems and a failure in a long-span sports structure in the U.S. The case involved the review of structural steel connections modeled in TEKLA. Delivered presentations before a mediator and over 80 representatives of parties, attorneys, experts, and insurers at two mediation sessions.
- *Patent Infringement and Trade Secret Misappropriation.* Retained to investigate the technical aspects of a case involving steel modular construction systems.
- *Construction Logistics and Quality.* Retained to investigate the effects of changes to craneage on construction productivity and quality at a high-rise building project.
- *Design Standard of Care.* Retained to evaluate design professional standard of care issues in connection with a structural steel failure at a multi-billion-dollar transportation facility.
- *Differential Column Shortening.* Retained as an expert to evaluate the effects of differential shortening in a 50-story, reinforced concrete hotel structure.
- *Architectural Precast Concrete Cracking.* Retained to evaluate the causes of cracking in architectural precast concrete elements installed for an island park structure.
- *Steel Connection Failure.* Retained to investigate and provide expert services concerning a connection failure at a large sports and entertainment structure under construction in the U.S.
- *High-Strength Steel Fasteners.* Retained to investigate and provide expert services concerning failures of large diameter, high-strength steel bolts at a high-rise building in Europe.
- *Precast Concrete Pier Damage.* Retained to investigate and provide expert services in connection with damage to architecturally exposed precast concrete piers installed in a riverbed to support a park landscape constructed over a river.
- *Reinforced Concrete Column Failure.* Retained at the direction of the authority having jurisdiction to investigate failures of columns in a 40-story residential building under construction.
- *Collapse of Masonry Facade Construction.* Retained to investigate and provide expert services in connection with the collapse of back-up concrete masonry unit construction at a high-rise condominium tower under construction.
- *Cracking in Galvanized Steel Spire.* Retained to investigate and provide expert services concerning cracks discovered in certain framing members installed in the spire of 1000-foot-tall office and hotel tower in the northeastern US.
- *Long-span Airport Structure.* Retained to investigate and provide expert services concerning structural design revisions made to a long-span airport structure under construction in Central Asia.
- *Precast Concrete Curtainwall Collapse.* Retained to investigate and provide expert services concerning a precast concrete curtainwall collapse at a 70-story condominium building under construction.
- *Settlement Damage Due to Underpinning and Dewatering.* Retained to investigate and provide expert services concerning damage alleged to have been caused by underpinning and dewatering at an adjacent construction project.
- *Stadium Steel Connection Design.* Retained to investigate and provide expert services concerning quality of contract documents produced for a stadium in North America.
- *Water Damage to Wood Framing.* Retained to investigate and provide expert services concerning water infiltration and damage lumber and glue-laminated structural elements at a custom single family residence in Long Island, New York.
- *Flood Damage.* Retained to investigate and provide expert services concerning alleged damage to residential structures caused by site drainage associated with a new adjacent condominium complex.
- *Structural Masonry Defects.* Retained to investigate and provide expert services concerning defects in a structural masonry and slab-on-deck residential building.
- *Pillowing and Cracking of Concrete Structure.* Retained to investigate and provide expert services concerning undesirable expansion and cracking of concrete floor slabs over large areas of a mid-rise building under construction.
- *Concrete Pool and Ancillary Structures.* Retained to investigate and provide expert services concerning cracking of a 40,000-sf concrete pool, surrounding concrete decks, and masonry bathhouses.
- *Concrete Balconies at High-rise Residential Tower.* Retained to investigate and provide expert services concerning cracking and spalling of cantilevered concrete balconies and designed repairs at a high-rise residential building in North America.
- *Concrete Foundations.* Investigated cracking of reinforced and plain concrete foundations observed at a 100-building residential complex.

- *Mechanically Stabilized Earth (MSE) Retaining Walls.* Retained to investigate and provide expert services concerning cracking and purported settlement of MSE retaining walls.
- *Adaptive Reuse of Existing Structure.* Retained to investigate and provide expert services concerning deviations from contract drawings and specifications for the reinforcement of existing floors to accommodate new equipment.
- *Effects of Temporary Construction Loading.* Retained to investigate and provide expert services concerning claims of damage due to the installation and operation of construction equipment at an existing mid-rise condominium building
- *Historic Building Settlements.* Retained to investigate and provide expert services concerning settlement and cracking of a 5-story historic limestone and brick structure adjacent to deep excavations for a neighboring construction project in the northeastern United States.
- *Single-Family Home Construction.* Retained to investigate and provide expert services concerning defects in wood structural components and concrete foundations at a custom single-family home in New York.
- *Masonry Facades and Parking Slabs.* Retained to investigate and provide expert services concerning cracking in the masonry facade, foundation walls, and garage slab of a complex of condominium buildings in North America.
- *Party Wall Water Intrusion.* Retained to investigate and provide expert services concerning water infiltration from a building being renovated into the brick rowhome next door.

Project Experience, Peer Review

- *45 Broad Street, New York, NY.* Peer reviewed the secant pile walls and caisson foundations of this 80-story residential tower.
- *Effects of Adjacent Construction.* Reviewed project plans, specifications, filings, and license agreement requests for proposed developments and assessed potential effects on behalf of adjoining property owners.
- *138 East 50th Street, New York, NY.* Peer reviewed this 64-story condominium tower.

Project Experience, Design

- *Trinity Tower, Seattle, WA.* Structural Engineer-of-Record for this 30-story condominium tower with 7 subgrade levels, including the performance-based design of the seismic load resisting system.
- *Brooklyn College Science and Classroom Building Renovations, Brooklyn, NY.* Structural Engineer-of-Record for this feasibility study of major renovations of approximately 1-million square feet of space in two 1930s campus buildings to serve as Brooklyn College's new science lab and classroom buildings.
- *Hunter Campus Schools Expansion, New York, NY.* Structural Engineer-of-Record for this expansion of an existing educational building.
- *15 Broad Street, New York, NY.* Structural Engineer-of-Record for this 30th Floor interior and façade alteration.
- *Convention Center and Public Transit Blast Enhancements.* Prepared schematic designs of blast enhancements for a convention center design project in North America.

Associate Partner

2012 – 2015

Director, LERA Investigations and Expert Witness Practice

Project Experience, Investigations

- *Design and Construction Defects in High-rise Reinforced Concrete Condominium Building.* Retained to investigate and provide expert services in a matter involving design and construction defects discovered in a 50-story reinforced concrete hotel and condominium tower with post-tensioned concrete floors.
- *Airport Runway and Taxiway.* Investigated scaling, cracking, spalling, and other defects in a reinforced concrete runway structure in North America, measuring over 200 feet wide and 2 miles long.
- *Steel Pile Corrosion.* Investigated corrosion damage and predicted future performance of steel pile foundations at a government complex in Central Asia.
- *Structure and Building Services Coordination.* Investigated conflicts between building structure and services in a government facility in Europe.
- *Blast Design.* Investigated the adequacy of blast designs of a 90,000-sf reinforced concrete structure in Central Asia.
- *Pre-Cast Concrete Railway Structure.* Investigated cracking and spalling of pre-cast concrete deck

LERA

panels supporting a 5-mile long segment of an operational commuter rail system and designed repairs.

- *Structural Drawings and Specifications Quality.* Investigated the quality of contract documents produced for a steel-framed, single-family home in North America.
- *Post-Tensioned Concrete Slabs.* Investigated the design and construction of post-tensioned slabs in a high-rise building in North America.

Project Experience, Design

- *Bureau of Land Reclamation, Boulder City, NV.* Project manager for this 45,000-sf office building, featuring architecturally exposed steel and concrete structural components.
- *CUNY Kingsborough Community College Performing Arts Center Renovations, Brooklyn, NY.* Project manager for alterations and additions to this existing facility.
- *CUNY Medgar Evers College, Carroll Street Building Renovations Feasibility Study, Brooklyn, NY.* Project manager for a feasibility study of alterations and additions to three interconnected academic buildings.
- *Broad Museum, Los Angeles, CA.* Project manager for the structural design of this 80,000-sf museum in collaboration with the team's local engineer. This project featured a nearly three-quarter-acre, column-free gallery space and 30-foot cantilevered, post-tensioned slabs.
- *Center for Design Innovation, Massachusetts School of Art, Boston, MA.* Project manager for the adaptive reuse of an existing gymnasium building. The design featured a new structure housing a raised gallery and campus entry portal, a new exhibit hall, and the reconfiguration of existing spaces for classrooms and lecture halls.

Senior Associate

2003 – 2011

Engineering Staffing Manager, New York Office. Coordinated with firm partners to allocate personnel to projects, identify hiring needs, and interview engineering candidates office wide.

Project Experience, Investigations

- *Structural Drawings and Specifications Quality.* Investigated the reasons for revisions to member sizes, connection forces, and details for a 90,000-seat stadium in Europe.
- *Embassy Complex.* Investigated quality of structural bid documents for, and the effects of seismic loading on, a complex of reinforced concrete structures in North America.
- *University Library.* Investigated excessive deflections of reinforced concrete slabs and cracking and spalling of concrete members at a 125,000-sf library in North America.

Project Experience, Peer Review

- *One World Trade Center (Freedom Tower), New York, NY.* Peer reviewed this 94-story super-tall office tower.
- *Two World Trade Center, New York, NY.* Peer reviewed this 78-story super-tall office tower.

Project Experience, Design

- *TransNational Place, Boston, MA.* Project manager for this supertall office building proposed for a site at 115 Winthrop Square. The project proceeded into design development phase before stopping in 2008 amid a slowing real estate market.
- *250 East 49th Street, New York, NY.* Project manager for this 24-story residential tower.
- *SUNY Stony Brook Graduate Chemistry Building Renovation, Stony Brook, NY.* Project manager for alterations and additions to this 300,000-sf classroom building.
- *773 Prospect Avenue, Bronx, NY.* Project manager for this 7-story shelter for battered women and their children.
- *Shelter Island House, Shelter Island, NY.* Project manager for this custom, 3500-sf, timber-framed home featuring 12-foot cantilevers and exposed cypress framing.
- *47 East 91st Street Condominium Building, New York, NY.* Project manager for this 9-story condominium tower built over an existing and continuously operating, one-story bank branch.
- *1281 Madison Avenue, New York, NY.* Project manager for the gut renovation of a rowhome.
- *Albert Einstein College of Medicine Comprehensive Opioid Treatment Facility, Bronx, NY.* Project manager for this new 45,000-sf healthcare building.
- *MetroGreen Condominiums, Stamford, CT.* Project manager for this 53,000-sf affordable housing building, featuring a concrete podium and four stories of wood-framed construction.
- *Stamford Ninth Grade Center, Stamford, CT.* Project manager for this 60,000-sf addition, built over the

existing locker room facilities at Stamford High School. The project included a new gymnasium, entryway, classrooms, and 20-ft tall concrete retaining wall to address site slope.

- *Danbury HeadStart School, Danbury, CT.* Project manager for the gut-renovation and expansion of an existing school building.
- *Hampshire Country Club Renovation, Mamaroneck, NY.* Project manager for the renovation and expansion of the clubhouse.
- *NYC DEP West of Hudson Headquarters, Kingston, NY.* Project manager for the renovation and expansion of this 98,000-sf facility housing laboratories and the regional headquarters of the Department of Environmental Protection.

Associate

2001 – 2002

Project Experience, Design

- *Las Vegas Springs Preserve Visitor Center, Las Vegas, NV.* Project manager for this 90,000-sf visitor center and exhibition space, featuring architecturally exposed structure and a 20,000-sf sunshade.
- *National Baseball Hall of Fame Renovation and Expansion, Cooperstown, NY.* Project manager for this renovation and expansion, which included repairs of existing masonry structures, expanded and reorganized galleries, and a new 3-story grand stair atrium with architecturally exposed steel framing.
- *Hunts Point Youth Center, Bronx, NY.* Project manager for this 10,000-sf gymnasium and community center featuring exposed, arc-shaped steel roof girders spanning the gymnasium and indoor track.

Lawrence Gordon Architects (LGA)

2000 – 2001

Designer

Project Experience, Design

- *Custom Home, Larchmont, NY.* Architectural designer and detailer of this custom home.
- *Municipal Building, Larchmont, NY.* Architectural designer and detailer of this wood-framed multi-story volunteer ambulance corps building.
- *Various Renovation and Expansion Projects, Northeast U.S.* Designer and architectural detailer of several additions to single-family homes.
- *Introduced the firm to computer-aided drafting.*

LERA Consulting Structural Engineers (LERA)

1994 – 2000

Associate

2000

LERA Librarian

Project Experience, Design

- *Federal Facility Security Enhancement, North America.* Project manager for this security upgrade project, which included reinforcements to an existing high-rise building to address blast loading, a blast-resistant site wall, and vehicle impact barriers.
- *Shanghai World Financial Center, Shanghai, China.* Project manager for design of this supertall office building.

Engineering Designer

1994 – 1999

LERA Librarian

Project Experience, Investigations

- *Chek Lap Kok Airport, Hong Kong.* Assisted in the review of the tied-arch roof system for this airport.

Project Experience, Design

- *St. Regis Hotel, Shanghai, China.* Project manager for this 38-story hotel.
- *Neiman Marcus Flagship Store Expansion, San Francisco, CA.* Project manager for this 5-story expansion of an existing department store. The project featured new retail space, a new truck dock, and seismic enhancements serving the combined building.
- *Rock & Roll Hall of Fame Circular Exhibit, Cleveland, OH.* Project manager for the fit-out of the circular exhibit space within the museum.
- *World Trade Center Renovations and Structural Integrity Inspections.* Designer of renovations to the complex, including security enhancements for pedestrian and vehicle attacks and tenant fit-outs.

Structural integrity inspector for the facades of the twin towers and low-rise buildings, and the antenna atop One World Trade Center.

- *Federal Energy Regulatory Commission, Washington, D.C.* Reviewer of shop drawings for this reinforced concrete government building.
- *PANYNJ Heliport, New York, NY.* Designer of a new vehicle security gate at the entrance to the facility.
- *5 World Trade Center Emergency Generators, New York, NY.* Designer of supplementary framing and temporary measures to accommodate the installation of new rooftop generators.

Teaching Experience

The Pennsylvania State University	2024 – Present
Guest Lecturer, Department of Architectural Engineering	
Columbia University	2022 – Present
Guest Lecturer, Fu Foundation School of Engineering and Applied Science	
Rhode Island School of Design (RISD)	2011 – 2021
Adjunct Faculty and Structural Advisor, Department of Interior Architecture, Adaptive Reuse Program	
American Institute of Architects, Continuing Education System	2014 – 2019
Presenter, “Adaptive Reuse – Structural Concepts and Approaches,” delivered at various architectural firms.	
Pleasantville High School Graduating Senior Internship Program	Spring 2023
Company Liaison and Team Leader, mock forensic engineering investigation into the collapse of the Hard Rock Hotel, New Orleans, LA, by four science-oriented high school interns	
Science Olympiad, Pleasantville Middle School	2015 – 2019
Coach, Mission Possible Team	
Boston Society of Architects	2013 – 2014
Structural Mentor for “Duck-Work Wood Landscape Concept,” Competition Finalist, <i>Urban Timber: From Seed to City</i>	

Professional Licenses and Designations

Benjamin Cornelius is licensed as an Engineer in several U.S. states and Canada.

Licensed Professional Engineer, New York	1999 – Present
Licensed Professional Engineer, New Jersey	2015 – Present
Licensed Professional Engineer, Rhode Island	2016 – Present
Licensed Professional Engineer, Pennsylvania	2017 – Present
Licensed Professional Engineer, Maryland	2017 – Present
Licensed Professional Engineer, Connecticut	2017 – Present
Licensed Professional Engineer, District of Columbia	2017 – Present
Licensed Professional Engineer, Florida	2018 – Present
Licensed Professional Engineer, Georgia	2018 – Present
Licensed Professional Engineer, Texas	2018 – Present
Licensed Professional Engineer, Indiana	2019 – Present

Licensed Professional Engineer, Louisiana	2019 – Present
Licensed Professional Engineer, Nevada	2020 – Present
Licensed Professional Engineer, Utah	2022 – Present
Licensed Professional Engineer, Alabama	2022 – Present
Licensed Professional Engineer, Colorado	2023 – Present
Licensed Professional Engineer, Idaho	2024 – Present
Licensed Professional Engineer, North Dakota	2024 – Present
Licensed Civil Engineer, California	2014 – Present
Licensed Civil Engineer, Washington State	2014 – Present
Licensed Professional Civil Engineer, Massachusetts	2017 – Present
Licensed Structural Engineer, Illinois	2022 – Present
Licensed Structural Engineer, Washington State	2014 – Present
Designated Model Law Structural Engineer <i>National Council of Examiners for Engineering and Surveying (NCEES)</i>	2014 – Present
Licensed Professional Engineer, Alberta, Canada	2023 – Present

Education

Bachelor of Architectural Engineering, The Pennsylvania State University	1994
Phi Alpha Epsilon Architectural Engineering Honor Society	1994 – Present
Tau Beta Pi Engineering Honor Society	1992 – Present
Professional Practice Activities Award <i>Professional Engineers in Private Practice of Pennsylvania</i>	1994
Gladys M. Baird Memorial Scholarship Award	1993
